

EXHIBIT 7
DATE 1-18-07
HB 2

Dear Madam Chair and Members of the Committee:

My name is Daryl Sineath and I am from Great Falls. When funding is cut it is Disability Services that suffer, when this happens we all loose. Independent Living Centers and MYLF are a vital part of any community. Students with disabilities face more challenges than a normal student. A Vocational Rehabilitation Transition Counselor will allow a student with disabilities a better chance to succeed after graduation. If there is no one there to help, then we loose a potential, Steven Hawkins or a Marlee Matlin. What an impact these two have made on society. MYLF aids the youth of this state by empowering them with the necessary skills to become successful adults. By passing the Governor's budget, along with Disability Services package allows those with disabilities a netter chance in life. In your deliberations remember those with disabilities are already at a disadvantage. Thank you for your time and careful consideration.
